Applicant's submission filed on 11/07/2005 has been entered.

2. The amendment filed 12/22/05 have been entered and made of record.

3. The following is an examiner's statement of reasons for allowance: The claims are directed to a method, system and apparatus for handling or analyzing or detecting doubled documents or doubled currency bills. The closest prior art (Jones et al., 5,966,456) uses a master transmitted light value for the document or currency bill to detect the presence of doubles (col. 28, line 61-col. 29, line 6). Jones does not calculate a reflectance ratio and adjust the master transmitted light value for the document or currency bill based on the reflectance ratio as recited in the independent claims. The use of both reflected and transmitted light allows for more efficient doubles detection that accounts for the reflected light value differences in the qualities of individual documents or bills between clean and dirty documents or bills.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Claims 1-51 are allowed.
